Generic Substitutions

An approved generic equivalent shall mean a generic drug that has been given an "A" therapeutic equivalent code by the Department of Health and Human Services. If a generic equivalent exists but a brand name drug is requested, you must pay an ancillary charge equal to the difference between the cost of the generic drug and the brand name drug in addition to the applicable Copayment and/or Coinsurance.

A listing of preferred drugs and their corresponding benefit levels is shown on the Health Net Essential Drug List (EDL). To view the current EDL, go to www.healthnetoregon.com/druglist.

The health plan will require verification that the medication was covered by the previous insurance company. This policy excludes the following: injectables, compounded medications, pharmacy benefit exclusions, and overrides on quantity or dosage limits.
